PROFILE

I am a Full Stack Web Developer with around 4 years and 8 months of experience working on real-world projects using **Angular, .NET Core, and SQL Server**. I have worked on different types of applications like HR systems and e-commerce platforms. I am comfortable handling both frontend and backend work, building APIs, and managing deployments.

WORK EXPERIENCE

Full Stack Developer – Hexamind Technologies 2021 – Present

Little Angels Co-Ed School

Developed a responsive school website with multiple modules like Academics, Vacancy, and Student Clubs using Angular. Improved UI/UX and ensured smooth navigation across all pages.

UR:: <https://littleangelskpt.in>

GenieHR - HR management system

Developed and maintained a full-stack HR management system using Angular and .NET Core. Built responsive UI, designed RESTful APIs, and integrated modules for employee management, attendance, and payroll.

URL: <https://www.geniehr.com>

E-Commerce Platform (Furniture)

Developed a furniture e-commerce platform with features like product management, shopping cart, and order processing. Worked on Angular frontend and .NET Core APIs for backend. Integrated payment functionality and handled deployment using cPanel. Also improved performance and applied basic SEO practices.
